

How can I represent numbers in different ways?

Reception Class

Sept 2022

BEING A MATHEMATICIAN

I can explore representing numbers in different ways. I can record numbers using marks and methods that I can interpret and explain. I can engage in number activities and represent numbers based on my own interests and fascinations. I am learning to count objects, actions and sounds. Activities provided to include: Dominoes, dice, playdough, sorting, counting and matching activities, chalk, number tiles, magnetic numbers, ten frames, number stencils, finger representation rhymes.

CHARACTER

CITIZENSHIP

How have I taken responsibility for my learning?

LEARNING TO LEARN

COLLABORATION
How have I helped others?

Outcome

I can talk about how I have represented numbers in my spontaneous play.
